THREAT ADVISORY

ATTACK REPORT

Trading platforms are in jeopardy due to ArkeiStealer

Date of Publication

December 28, 2022

Admiralty Code

A1

TA Number

TA2022322

Summary

First appeared: May 2018

Attack Region: Worldwide

Attack: ArkeiStealer is an information stealer malware family tailored by threat actors to enumerate private information.

Attack Details

#1

Threat actors are currently disseminating ArkeiStealer via Windows Installer binaries disguised as trading applications. The trading application has been backdoored with the SmokeLoader downloader, which also includes an information stealer.

#2

The threat actors have registered a domain that looks like an authentic website, with a download link that leads to the installation of a malicious Windows Installer.

#3

Upon execution, this installer displays a Graphical User Interface (GUI) that impersonates the Trading application while performing malicious operations in the background.

#4

It drops a SmokeLoader DLL, which begins beaconing out to its C2 at the IP address and gets a few download tasks, along with the ArkeiStealer information stealer, which employs a dynamic configuration that allows the malware's functionality to be extended at any point of the campaign.

Recommendations

Security Leaders

Phishing simulations and routine education and awareness training and communications rarely account for MFA fatigue and web browser hygiene. Integrate and communicate all lessons learned.

Security Engineers

- **Uni5 Users:** This is an actionable threat advisory in HivePro Uni5. Prioritize and block all indicators attributed to the threat actors and attacks through your Command Center. Test your controls with Uni5's Breach & Attack Simulation.
- **All Engineers:** Refer to and action upon the 'Potential MITRE ATT&CK TTPs' & 'Indicators of Compromise (IoC)' on the following pages.

Potential MITRE ATT&CK TTPs

<u>TA0002</u> Execution	<u>TA0003</u> Persistence	<u>TA0004</u> Privilege Escalation	<u>TA0005</u> Defense Evasion
<u>TA0007</u> Discovery	<u>TA0011</u> Command and Control	<u>TA0010</u> Exfiltration	<u>TA0040</u> Impact
<u>T1203</u> Exploitation for Client Execution	<u>T1574</u> Hijack Execution Flow	<u>T1574.002</u> DLL Side-Loading	<u>T1055</u> Process Injection
<u>T1036</u> Masquerading	<u>T1070</u> Indicator Removal	<u>T1070.004</u> File Deletion	<u>T1497</u> Virtualization/Sandbox Evasion
<u>T1564</u> Hide Artifacts	<u>T1564.001</u> Hidden Files and Directories	<u>T1010</u> Application Window Discovery	<u>T1057</u> Process Discovery
<u>T1082</u> System Information Discovery	<u>T1518</u> Software Discovery	<u>T1518.001</u> Security Software Discovery	<u>T1071</u> Application Layer Protocol
<u>T1095</u> Non-Application Layer Protocol	<u>T1105</u> Ingress Tool Transfer	<u>T1041</u> Exfiltration Over C2 Channel	<u>T1491</u> Defacement
